

Chapter - 7

Paper Coding

Q1

```
import random as rd
res = []
while (len(res) != 3):
    i = rd.randint(1, 101)
    if i % 5 == 0:
        res.append(i)
print(res)
```

Q2

```
import datetime
now = datetime.datetime.now()
future = now + datetime.timedelta(days = 365 * 100)
print("Happy New Year.", future.year)
```
